

# Better Tracker

with 365 Scout™

A Smarter, Simpler Way to **Take Control of Business Expenses, Contracts, Software Subscriptions and IT Spend** in order to **Eliminate Waste & Create New Revenue**

You're likely drowning in blind renewals, unused subscriptions, zombie licenses & shadow IT—all of which drain profits. And without visibility into *actual* usage, the risks stay hidden.

**Eliminates reactive reporting & provides proactive enlightenment!**

Say goodbye to guesswork and hello to seamless spend management. Using **BetterTracker with 365 Scout**, you'll have the **ONLY** marketplace platform that seamlessly unites exactly what's paid for: every contract, subscription, and expense... everything that's actually used across Microsoft 365.

The result is complete visibility into actual spend and usage, thereby **ELIMINATING COST** surprises, closing security gaps, and measurably boosting profitability!

## Smarter Spending Decisions

Gain complete visibility. Cut unused seats & duplicate tools. Optimize spend. Maximize the value of every contract.

## Centralized & Organized

Easily manage contracts, vendors, and renewals in one place: always accessible and up to date.
